After a corrupted Anti-Life Equation turned billions into monsters–including Earth's Greatest Heroes–our planet was as good as dead.

Years later, a distress call brings Damian Wayne, Jon Kent, and Cassie Sandsmark–the Batman, Superman, and Wonder Woman of Earth 2–back to a dead planet...but what will this new Justice League find waiting for them? If life still exists on Earth, who–or what–is lying in wait for these heroes?

The original creative team of Tom Taylor and Trevor Hairsine reunite for the sequel to the 2019 blockbuster series *DCeased*!

TOM TAYLOR: *DCEASED: DEAD PLANET* WILL BE "EVEN BIGGER" THAN THE ORIGINAL

Interview by Albert Ching

It's time for the sequel. *DCeased: Dead Planet* is set five years after the cataclysmic events of the original series, with Damian Wayne, Jonathan Kent, and Cassie Sandsmark–now firmly established as Batman, Superman, and Wonder Woman–leave Earth-2 to answer a distress call from the dead planet they left behind–and what they return to is sure to be truly distressing.

DCeased writer Tom Taylor talked about what readers can expect from the sequel as he reteams with artist Trevor Hairsine, forms a new Justice League, and plots "extreme violence and shocking deaths" on the way.

What are you most excited for people to see with DCeased: Dead Planet*? What will surprise people who loved the original?*

I always had a lot more *DCeased* planned in my head, and scrawled on notepads and whiteboards, not to mention rambling late-night emails to [editor] Ben Abernathy. And I'm just so excited to continue this story. We set up so many things, and now we get to pay it all off. The heroes we saved and brought to a new Earth will return. Harley Quinn and Poison Ivy are still there, along with any survivors from *Unkillables*. And then we have the continuing story of Constantine, Zatanna, Doctor Fate, and other magic users.

I can't thank readers and retailers enough for getting behind *DCeased*, and I urge everyone not to miss out on the sequel. *Dead Planet* is even bigger than the first. We have so many massive moments coming. We have moments of pure joy and heroism mixed with extreme violence and shocking deaths. You know, all that fun stuff.

The original DCeased *ended on something of a hopeful note–how much time has passed since then, and what's left of the world when the story picks up?*

Five years have passed since the arks left Earth. The anti-living Superman is up there slowly eating our sun, and it's gotten a little colder. The world is completely ruled by death, but there's still a small resistance force of survivors, stubbornly refusing to die and still out there looking for pockets of life. There is also another group, but we... shouldn't talk about them yet.

Trevor Hairsine is on board for the sequel–what's it like having him back?

Honestly, Trev and I, along with Ben Abernathy, colorist Rain Beredo and letterer Saida Temofonte, were already planning to do the sequel before we'd even finished up on the first *DCeased*, so for us, it's like we never stopped. But Trev is bringing his A game to *Dead Planet*. The pages he's been sending in are lighting a fire under me. His Constantine is perfect, and his Swamp Thing is...oh no, I've said too much!

What can you share at this point about the aged-up versions of Damian Wayne, Jon Kent, and Cassie Sandsmark starring in this series? How prepared are they for what awaits in the titular dead planet?

There's no way they can be prepared for what they're about to face. But Damian, Jon, and Cassie are Batman, Superman, and Wonder Woman. They are the Trinity. Without wanting to telegraph it, we were always setting up a new Justice League in *DCeased*. A new Batman, Superman, and Wonder Woman joined by Dinah as Green Canary, Wally as the new Flash, Mera replacing Aquaman, and adding Thunder and Lightning. This is a new Justice League returning to a doomed Earth to answer a distress signal. They're going up against death, but don't bet against them. Just be prepared for some pain.

From *New York Times* bestselling author Grace Ellis (*Lumberjanes*) and artist Brittney Williams (*Goldie Vance*) comes a new story about 13-year-old Lois Lane as she navigates the confusing worlds of social media and friendship.

It's the first day of summer break in the sleepy town of Liberty View, and young Lois Lane bursts onto the scene with what she knows is a sure-to-go-viral video channel. Okay, maybe her platform only receives two views a week (thanks, Mom), and maybe her best friend, Kristen, isn't quite as enthusiastic about social media, but when Lois sets her mind on something, there's no turning back.

At the end of the week, the big neighborhood barbecue and bike race will be the perfect backdrop to Lois and Kristen's #friendshipchallenge video. But when the girls find out the annual fireworks are missing, Lois doubles down on her efforts for fame, testing her friendship in ways she couldn't imagine.

With Kristen leaving for sleepaway camp after the barbecue and a new girl on the block taking all of Kristen's attention, will Lois be able to find the missing fireworks, celebrate the summer, and post the best #friendshipchallenge the internet has ever seen? Or will she have to face her challenges IRL?

written by
JEFF LEMIRE

art and cover by
ANDREA SORRENTINO

The Eisner-nominated creative team of writer Jeff Lemire and artist Andrea Sorrentino (*Green Arrow, Gideon Falls*) reunite for a psychological horror story that delves into the bottomless insanity of The Joker.
